Defined terms in the Leveraged Equities Terms and Conditions have the same meaning in this document.

To receive the diversified Lending Ratio the Lending Value of the Acceptable Investment must not represent more than the allowable Concentration Limit in the Secured Portfolio. Any Market Value not eligible for the diversified Lending Ratio may receive the standard Lending Ratio. Bought Puts, cash and cash like investments are excluded from the calculations.

All Securities are restricted and capped to allowable concentration. Lending Values may decrease daily in line with fluctuations with the Secured Portfolio.

Wraps/MasterTrusts/Platforms - if there is no Lending Ratio on this list, refer to the Lending Ratio for each individual investment as per the current list of Acceptable Investments.

Lending Ratio - The percentage applied from time to time by the Lender to particular items of the Secured Portfolio and, if no percentage is allocated by the Lender for a particular item of the Secured Portfolio, means zero. For the full definition, refer to Section 9 of the Leveraged Equities Terms and Conditions. You must confirm the Lending Ratio applicable to your Secured Portfolio prior to purchasing Acceptable Investments. Lending Ratios are set for the purpose of managing the Lenders risk and do not represent, and should not be interpreted as, investment recommendations or advice.

The Lender may at any time at its discretion, change the list of Acceptable Investments, any percentage to calculate the Buffer, or any Lending Ratio in accordance with the Leveraged Equities Terms and Conditions.
