Defined terms in the Leveraged Equities Terms and Conditions have the same meaning in this document.

Net Short Position must not exceed \$1,000,000 (being the Net Short Limit).

Safety Margins are set for the purpose of managing the margin lenders risk and do not represent, and should not be interpreted as investment recommendations or advice. There is no guarantee that any of these securities will be available for short selling at any time. The Lender may remove any Security from the list of Securities and may also change the Safety Margin.

Collateral is an amount equal to 105% (or such other percentage as otherwise determined by us from time to time) of the Short Security Value applicable from time to time. You pay this amount when you borrow the Securities. If you have sufficient borrowing capacity, you will typically borrow the Collateral through your Margin Loan facility. Refer to the Short Plus Product Guide dated 9 November 2023 for further details about 'What is the Collateral' and how it is calculated.

Defined terms in the Leveraged Equities Terms and Conditions have the same meaning in this document.

Net Short Position must not exceed \$1,000,000 (being the Net Short Limit).

Safety Margins are set for the purpose of managing the margin lenders risk and do not represent, and should not be interpreted as investment recommendations or advice. There is no guarantee that any of these securities will be available for short selling at any time. The Lender may remove any Security from the list of Securities and may also change the Safety Margin.

Collateral is an amount equal to 105% (or such other percentage as otherwise determined by us from time to time) of the Short Security Value applicable from time to time. You pay this amount when you borrow the Securities. If you have sufficient borrowing capacity, you will typically borrow the Collateral through your Margin Loan facility. Refer to the Short Plus Product Guide dated 9 November 2023 for further details about 'What is the Collateral' and how it is calculated.
